Portfolio

EDUCATION

Bachelor of Technology, Computer Science and Engineering

Vardhaman College of Engineering, Shamshabad

2024 – 2028

CGPA: 8.77 / 10

Intermediate (MPC), Telangana State Board of Intermediate Education (TSBIE)

Narayana Junior College, Kothapet

2022 – 2024

Percentage: 94.4%

Secondary School Certificate, Telangana Board of Secondary Education (TSBSE)

Narayana High School, Gaddianaram

2022

Percentage: 100.0%

PROJECTS

FinancePro: Full-Stack Expenses and money tracker — Cloud-synced

December 2025

- Developed a secure, full-stack personal finance application featuring a secure login PIN mechanism using Node.js, HTML5, CSS3.
- Engineered a serverless backend architecture deployed via Vercel Serverless Functions, integrating a cloud KV database to ensure persistent transaction logs.
- Optimized application reliability and localization by implementing automated local server startup scripts and native IST.

RescuEat: Digital Surplus Food Redistribution Platform

2024

- Engineered a full-stack digital platform designed to bridge the gap between surplus food donors, verified NGOs, and volunteers.
- Architected a lightweight Node.js server environment to handle real-time data flow for logistical transparency, minimizing administrative overhead and reducing community food waste.

AI-Based Recurring Payment & Financial Intelligence System

In process

- Developing a software to predict upcoming payments & provide timely renewal alerts before deduction occur.
- It is a real-time application to analyze recurring expenses & provide AI-based personalized financial insights & savings recommendations.

EXPERIENCE

Team Lead - RescuEat

2024 – Present

Managing my team under a project

College

- Led and coordinated a student project team for nearly two years, managing task allocation, project planning, and team collaboration.
- Guided the development and improvement of RescuEat, focusing on problem analysis, solution design, and project execution.
- Collaborated with team members to translate project ideas into technical features and working prototypes.
- Utilized GitHub and Vercel for version control, collaboration, and deployment workflows.

COMPETITIVE PROGRAMMING

- Solved 75+ algorithmic problems on LeetCode across Arrays, Strings, Hashing, and Dynamic Programming.
- Solved 80+ problems on GeeksForGeeks.
- Active participant on LeetCode, HackerRank, and GeeksForGeeks, continuously improving problem-solving and algorithmic skills.

TECHNICAL SKILLS

- Languages:** C, Python, C++(learning), Java
- Machine Learning:** Regression, Data Pre-processing, Data Cleaning, Exploratory Data Analysis
- Technologies:** HTML5, CSS3 (Basic)
- Core Subjects:** DSA, OOP, DBMS, OD
- Libraries:** NumPy, Pandas, Matplotlib, Scikit-learn
- Tools:** Git, GitHub, Vercel, Hugging Face
- Concepts:** REST APIs, Authentication, Software Design

CERTIFICATIONS

Programming in Java – NPTEL

2025

Elite + Silver Certification – IIT Kharagpur

- Completed NPTEL certification covering Java and mainly focusing on Object-Oriented Programming concepts. 

Data Science Essentials with Python – Cisco Netcad Academy

2026

Professional Certification

- Completed training on fundamentals of Data Science using Python. 

Generative AI Workshop – RemarkSkill Education

2025

Certificate of Workshop Completion

- Had a great hands-on experience in Generative AI workshop held in IIT Hyderabad. 

AgentForge 2026 Bootcamp – Salesforce and AgentForge Club

2026

Participation Certificate

- Understood the work culture of big companies like Salesforce and gained knowledge on AI agents building some hands-on projects.
